

Professional Headshots

Setup

This is our portable headshot studio that we can bring to your premises in London. It can be setup in a meeting room, spare corner of the office or in any communal space.

As standard, you can choose from a black, white or grey background. We have all the lighting needed to shoot crisp, uniform headshots that are perfect for any professional use.

All we need is a plug point and a small desk or surface.

What To Expect

A very chilled, easy-going atmosphere !

5-10 mins per person is recommended, so people can relax into their shoot.

We will take several shots that can be viewed on screen as we go.

Each person can choose the one they like best as their final shot.

All chosen images will be lightly retouched, so don't worry about any little skin blemishes or anything like that.

Final images will be delivered within 7 days in colour or black and white. You will receive a high and low resolution version of each – ideal for electronic (lo res) or print (hi res).

Cost

- 1-19 people: £40 per person*
- 20-29 people: £35 per person
- 30-50 people: £30 per person
- 51-100 people: £25 per person
- >100 people: £20 per person

**minimum fee of £350*
